

A Mothers Ordeal: One Woman's Fight Against China's One-Child Policy

This gripping account tells the story of a woman who grows up in a time of dire famine and political upheaval before she becomes a population control worker. After a career of enforcing China's strict one-child policy with coercion, sterilization, late-term abortion, and infanticide to keep birth rates low, an unexpected pregnancy suddenly makes her the victim. Her fight for her daughter's life and her plea for political asylum in America show her determination to escape the regime that forced unspeakable horrors upon its people. Read her story and discover the ordeal still faced by mothers today in China.
