

How to Become a FT Self-Publisher: Freelance Writers -- How to Transition from Writing for Clients to Writing for Yourself

This ebook is all about pulling the trigger so you can transition from writing for clients to writing for yourself. Or, as I like to refer to it ...Start building your own information empire! I finally pulled the trigger and have a goal of publishing 32 new titles this year (2011), and get 18 of my existing ebooks on Amazon, for a total of 50 titles on the big A by years end. In this ebook, I outline how I'm doing it -- and how you can too. Who This Ebook Can Help I'm a freelance writer, so I wrote this ebook because I received questions from other freelance writers about how I made/am making the transition to becoming a full-time self publisher. So, while I talk to freelance writers in this ebook, the information within can be used by anyone who wants to transition into a self-publishing career, eg: (i) Employees who want to eventually quit a job and write ebooks for a living; or (ii) Freelancers who want to transition from one niche to another. The steps are basically the same ... and can help you make the transition successfully. Following is a complete Table of Contents.
